

The Idolocrazy of Kari - Lolita Throne

Fans Demand an Encore

The infamous Kari is known across the whole galaxy, and when her shows are winding down every fan has the duty to demand an encore. When fans demand an encore, it echoes across the whole battlefield, bellowed from hundreds or even thousands of mouths.

Once per battle, at the start of your Maneuvers Phase, you can call for an Encore. If you do, until the start of your next Maneuvers Phase, the Encore is active for your army and:

- Formations from your army with this ability are eligible to declare an Assault in a turn which they Advanced.
- Add 1 to the Swiftiness statistics of melee weapons equipped by troops from your army with this ability. Additionally, all ranged weapons equipped by troops have the SUSTAINED FIRE 1 ability.
- All troops gain Invulnerable Defence 6+. If a troop already has Invulnerable Defence 6+ they instead gain 5+.

Rassa Moxol - Hakarak of Jian'Ha

Doctrine Rule

If your Army is the Lolita Throne, you can use one of these Combined Regiment Doctrine rules.

Double Bullet

The Lolita love their weapons, but some mad fans have taken Kari's song "Double Bullet" to heart and have developed the unique Double Bullet, which is in fact two bullets in one.

All ranged weapons equipped by INFANTRY formations have the SUSTAINED FIRE 1 ability. While the Encore is in progress, they instead have SUSTAINED FIRE 2.

Star-Stolen Rage

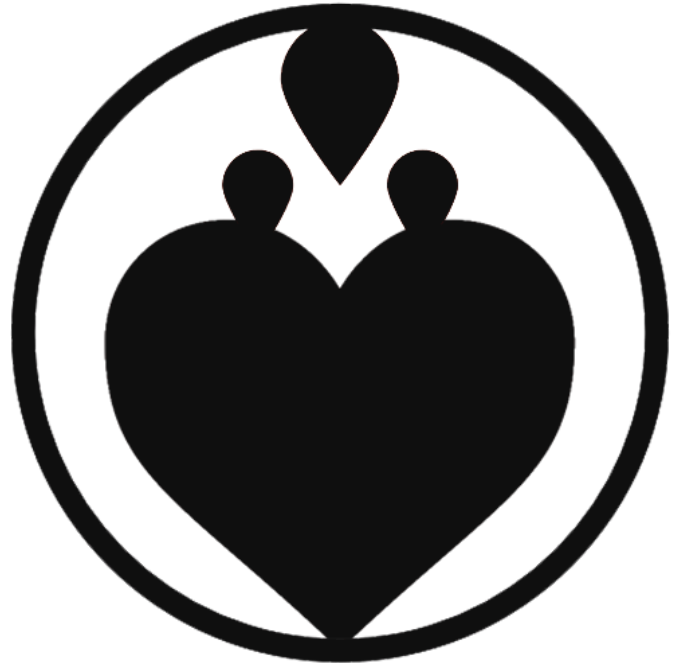

Kari's famous for whipping all her best fans into a raging torrent, especially when she releases chemicals onto the battlefield which promote this.

Each time a Lolita Throne formation from your army is selected to Brawl, if that formation made an Assault move this turn, until the end of the phase, add 1 to the Strength and Swiftness statistics of melee weapons equipped by troops in that formation.

Fan Mob

As the Fan Members get into bigger and bigger groups they become more and more belligerent, more and more uncontrollable, more and more powerful.

Each time an attack targets a FAN formation from your army, that formation has REINFORCED HEALTH 6+. Each time an attack targets a FAN formation from your army that has 10 or more troops, troops in that formation they instead have REINFORCED HEALTH 5+

Rassa Moxol - Hakarak of Jian'Ha

Enhancement

If you are using the Fans Demand an Encore Army rule, you can use these Enhancements.

Hype Up The Fans

Always at the front of any battle, this Idol likes to get into the nitty gritty.

INFANTRY troops only. While the bearer is leading a formation, add 2" to the Move statistic of troops in that formation.

Playing Hard To Get

Playing hard to get is often a girls best method to win the hearts of boys~

INFANTRY troops only. While the bearer is leading a formation, that formation is eligible to shoot, and declare a charge in a turn in which it made a Retreat Move.

Heart of the Fandom

This Idol is definitely the heart of the fandom, they always keep those around them fighting for as long as possible.

CHARACTER troops only. Troops in this formation have the Reinforced Health 6+ ability. If troops in this formation already have the Reinforced Health ability, add 1 to their Reinforced Health rolls.

If you are using the Double Bullet Doctrine rule, you can use these Enhancements.

Follow the Light!

Although Eksoli have bad eyesight and even worse gun skills a good leader can point them to shoot at the shiny weapons of the enemy.

INFANTRY troops only. Each time a troop in the bearers formation makes a Ranged Weapon attack, add 1 to the Hit Roll.

If you are using the Star-Stolen Rage Doctrine rule, you can use these Enhancements.

☯ ☐ •Overdosed And Loved• ☐ ☯

Kari always has been into some strange chemicals, and sometimes she gets her smartest minds to cook up even stranger ones.

CHARACTER troops only. The bearer has the Reinforced Health 4+ ability.

If you are using the Fan Mob Doctrine rule, you can use these Enhancements.

Oversized Speakers

Bigger speakers make crowds seem bigger, and can both inspire friends and instill fear in foes.

INFANTRY troops only. While the bearer is leading a formation, that formation always counts as containing 10 or more troops for the purpose of any Doctrine Rules or Battle-Manoeuvres you use.

Battle-Manoeuvres

MY BODY FOR KARI!

Lolita Throne - Battle Tactic - 1MP

My vehicles on its last legs... any man worth a cent to Kari would take the enemy with 'em.

When: Any phase, just after a Lolita Throne Vehicle formation from your army with the Deadly Demise ability is destroyed.

Target: That destroyed Lolita Throne Vehicle formation, if you roll a 6 for its Deadly Demise ability. You can use this Battle-Manoeuvre on that formation even though it was destroyed.

Effect: Your formation can make a Normal or Retreat move before its Deadly Demise ability is resolved, and before any embarked formations perform an Emergency Disembarkation. When making this move, your formation can move over enemy formations (Excluding Monstrous and Vehicles) as if they were not there.

BRAWN OVER BRAIN

Lolita Throne - Battle Tactic - 1MP

Those who want even a chance with Kari must slam their heads against an enemy no matter how big or dangerous.

When: Brawl Phase.

Target: One Lolita Throne formation from your army that has not been selected to brawl this phase.

Effect: Until the end of the phase, each time a troop in your formation makes a melee attack that targets a Character, Monstrous or Vehicle formation, add 1 to the Wound roll.

COVER YOUR DEAR

Lolita Throne - Battle Tactic - 1MP

Keep those legs warm men! Rush forward! Cover her!

When: Your Movement phase.

Target: One Lolita throne formation from your army that has not been selected to move this phase.

Effect: Until the end of the phase, if your formation advances, do not make an Advance roll. Instead, until the end of the phase, add 6" to the Move characteristic of troops in that formation.

KARI *IN KILLER QUEEN BATTLESUIT*

As Empress of the Lolita Throne, Kari demanded a mobile platform worthy of her status—something grand enough to flaunt her presence on the battlefield and ensure all could kneel in awe. Unfortunately, her devoted Eksoli followers lacked the technical prowess to construct such a marvel. Undeterred, Kari orchestrated a bold heist, stealing a prototype Skolurgy Super Suit intended for Consul Nician. She then customized the suit in her favorite colors, transforming it into a throne of power and fashion, perfectly suited for her imperial ambitions.

V.I.PANZER

Once a proud Constitution-Pattern tank of the POU, the V.I.Panzer was graciously borrowed and fabulously reimagined by Kari's crew. Now armed with nastier ammo and delightfully unregulated firepower, it trades military precision for raw spectacle. It's loud, it's lethal, and it absolutely refuses to follow safety protocol—just the way the Empress likes it.

BOYARIN CONVERT

Once a towering war machine of the Kolkattan Empire, this massive Boyarin has been liberated and lovingly repurposed in the name of Empress Kari's fabulous crusade. Though spare parts are rare and half the systems run on sheer enthusiasm, it still hits like a glitter-covered freight train. Refitted with flair and loyalty, it's proof that even the enemy's finest can learn to serve with style.

EMPRESS EXPRESS

A rumbling half-tracked spectacle wrapped in chrome and chaos, the Empress Express hauls Karl's entourage, essentials, and ego from one battlefield to the next. Part war rig, part royal float, it's decked out with loudspeakers, vanity mirrors, and just enough armour to survive a mosh pit of missiles. When this beast rolls in, you know the show's about to start.
