

ROBURA

Grinding Annihilation

Rules

Introduction

Welcome to the *Robura: Grinding Annihilation 2nd Edition* Core Rules Booklet. The following pages contain everything you need in order to wage war across the Roburan Expanse.

Robura: Grinding Annihilation is a tabletop skirmish-game in which each player commands an army of miniatures representing the forces of your chosen faction. The game unfolds in a series of Battle-Phases, during which each player takes turns. Across these phases, the players will move their force, make fire at their foe, and finally break into bloody hand to hand combat.

A Battle usually lasts for five Rounds, at the end of which through a combination of tactics, planning, and luck, one of the players will be crowned a victor.

Each Robura: Grinding Annihilation game is played using an **Operation**, which you must generate before you begin. You can do so by using an **Operation Deck**. Each operation will tell you how to prepare for the battle and deploy your forces, as well as any additional rules that may be in effect. It will also of course explain how to win.

Operations will instruct players to **Form an Army** from their faction, and will state the total size those armies should be.

For whichever faction you choose to form an army out of, there is a **Catalogue**, which acts as an invaluable guide. Each Catalogue is the penultimate source book for your faction, filled with lore, art, and of course the rules of your army.

Finally, before playing, you will need to create a **Warfield** with some terrain. You will require a tabletop, and some objects to act as terrain; your chosen operation will guide you on any specifics of setting up the warfield, and what each kind of terrain does is listed later into this guide.

Basic Rules

Core Concepts

Armies

Each player in a game of Robura: Grinding Annihilation commands an army made up of **Formations of Troops**. You control all of the troops in your army. If a rule refers to the *controlling player*, it is referring to the player who controls the troops being affected by that rule.

Formations & Troops

A formation can contain one or more troops. These troops move and fight together as a single cohesive group. Most troops have a base, which is also part of that troop for all rules purposes.

Rules sometimes affect *friendly* or *enemy* troops or formations, which are defined as follows:

- Friendly formations and troops are those within your army, or which you are currently controlling.
- Enemy formations and troops are those in your opponent's army, or which they are currently controlling.

If a rule affects troops or formations without being specific, that rule affects any formation or troop, regardless of whose army they are in. When an effect or ability applies to a formation, it applies to every troop within that formation.

Active & Opposing Player

At any given time, one player is the *active player* and their opponent is the *opposing player*. Which player is which depends on the current condition in the game, but both players are either the Active or Opposing player at a point in time. Whenever it is your turn during a Battle-Phase you are considered the active player, and your opponent the opposing player, and vice-versa.

While it is your turn, you are always generally considered the Active Player, unless:

- The Opposing Player is actively controlling their own troops or formations.

Measuring Distance

Distances are measured in inches (") for simplicity. You although may measure in any equivalent way (1" = 2.54cm). When a rule refers to a troops position in relation to anything on the warfield, unless otherwise stated, measure to or from the closest part of that troops base (or model if baseless).

Dice

You will require six-sided dice (often abbreviated to D6). As well you may require four-sided, and eight-sided dice (abbreviated to D4 and D8). Generally dice rolls are referred to in several ways including:

- **2+, 3+, ect:** 2+ means a result of 2 or more, 3+ means a result of 3 or more, and so on.
- **1-3,4-6, ect:** Any result within the specified range will interact with the rule stated.
- **2d6, 3d6, ect:** Roll the stated number of dice, and add the values together. 3d4 means to roll three four-sided dice and return the total value of each die.
- **D3:** Roll one D6 and have the result (rounding up).
- **D6+1, 2D6+1, ect:** Roll the stated number of dice, and add the stated value to the roll result.
- **d4 & d6, 2d4 & d6:** Roll the stated dice together and tally the result. For example d4 & 2d6 means to roll one four-sided dice and two six-sided dice and return the total value.

All dice rolls unless stated otherwise are assumed to be made with a D6

Battle-Effectiveness Rolls

To make a **Battle-Effectiveness Roll** for a Formation, its controlling player rolls a D8: if the result is equal to or greater than one or more the **BE** statistics in that formation, that rolls succeeds. Otherwise, that roll fails. The rule that instructed you to make the Battle-Effectiveness Roll will describe the effects of that roll succeeding or failing.

Battle-Fatigue Rolls

To make a **Battle-Fatigue Roll** (Sometimes called a Battle-Fatigue Test for a formation, its controlling player makes a **Battle-Effectiveness Roll** for it (See above).

- If that roll succeeds, that formation does not become **Battle-Fatigued**.
- If that roll fails, that formation, and each troop in it, is **Battle-Fatigued**.

While a formation is **Battle-Fatigued**:

- The Strategic-Use (SU) statistic of all troops within that formation is modified to 0, and cannot be modified up.
- Its controlling player cannot make use of **Manoeuvres** which target that formation.
- It is not eligible to make **March** or **Rush** moves. Additionally it has its Ranged Skill (RS) and Brawl Skill (BS) statistics worsened by 1.

Formation Listing

Each Formation has a Listing that explains how it functions in battle. Here you will learn how to read a Listing when preparing your army and playing games

1. Listing Name

Here you will find the name of the Formation.

2. Profile

This contains the following statistics that tell you how mighty the troops in that formation are:

- **Movement (M):** The speed at which the troop moves across the warfield. If a troop has an M statistic of '-', it can be set up onto the warfield, but otherwise cannot be moved.
- **Vitality (V):** The troops resilience against harm being harmed.
- **Defence (De):** Presented as a D6 Dice Result (e.g. 4+), this indicates the protection a troops armour gives it.
- **Maximum Defence (MaxDe):** Presented as the maximum Defence a troops armour can be modified up to by attacks. Some troops are protected by esoteric means, not all troops will have a Maximum Defence for this reason.
- **Stamina Points (Sp):** Stamina Points represent how much damage a troop can sustain before it is **destroyed**. If a troop's Stamina is reduced to 0, or fewer, that troop is **destroyed**.
- **Heroism (He):** Presented as a dice result (e.g. 7+), this reveals how courageous, determined or self-controlled a troop is.
- **Strategic-Use (Su):** How effectively a troop exerts control of an **Objective**.
- **Ranged Skill (Rs):** Presented as a dice result (e.g. 4+), this shows how accurate the user is with Ranged Weapons.
- **Brawl Skill (Bs):** Presented as a dice result (e.g. 4+), this shows the skill in wielding Melee Weapons.

3. Abilities

Many formations have abilities that may apply during the game. These will be described here.

4. Weapons

Weapons have the following statistics:

- **Range (R):** How far the weapon can reach. Weapons with the **Melee** statistic are Melee Weapons.
- **Swiftness (Sw):** How many **attack dice** are used each time that weapon is used.
- **Ranged Modifier (Rm):** Presented as a modifier to the a Ranged Attack dice roll (e.g. -1).
- **Brawl Modifier (Bm):** Presented as a modifier to the a Melee Attack dice roll (e.g. -1).
- **Strength (S):** The higher a weapons **S** statistic, the more likely it is to wound a foe.
- **Armour Penetration (AP):** Presented as a modifier to the a dice roll (e.g. -1). The larger the modifier, the better the weapon is at cutting through the target's defences.

- **Damage (D):** The amount of damage inflicted by an attack.

5. Tags

Listings have a list of Tags, seperated into Factional, and Other Tags. The former are used when deciding which troops to include in your army, but otherwise both are functionally the same. Tags appear in full capitals.

Some rules are linked to one or more tags. For example, a rule might say it applies to INFANTRY formations. This means it only applies to formations that have the INFANTRY tag. Singular plural instances of the same tag function in the same way.

6. Formation Composition and Other Rules

This section details the number and type of troops in the formation. Each of those troops will have one set of default Gear, which will be listed here. It may also list other rules, such as what formations a leader formation can attach to, or which formations can embark within a TRANSPORT.

7. Gear Options

Some listings have a list of Gear options. When you include such a formation in your army, you can use these options to alter the weapons, and other gear its troops have, usually for a small difference in point cost.

An example listing is provided on the next page.

Conscript Squad

Faction: GEM

Tags: INFANTRY, LINE TROOP, GRENADES, REGIMENT, CONSCRIPT SQUAD

Conscript

M	V	DE	SP	HE	SU	RS	BS
6"	3	5+	1	5+	2	4+	5+

Faction Abilities Protocol of Equal Burden

Presidium Line-Lock. If this formation is within range of an Objective Marker, they gain the Benefit of Cover.

Ranged Weapons

	TAGS	R	SW	RM	S	AP	D
Pulse Rifle	[Rapid Fire 1]	24"	1	0	3	0	1
Burnlance	[Inferno 2]	12"	1	0	9	-4	D6
Volley Fragger (Frag)	[Volatile]	24"	D4+1	-1	3	0	1
Volley Fragger (Burner)	[Inferno 1]	24"	1	0	8	-3	D4
Blazejet Sprayer	[Volatile, Ignores Cover]	12"	D6	0	-	0	1

Melee Weapons

	TAGS	R	SW	RM	S	AP	D
Sideblade		Melee	1	0	3	0	1

Gear & Options

- For every 10 troops in this formation, 1 Conscript may have their Pulse Rifle replaced by one of the following:
 - 1 **Burnlance** (5pt)
 - 1 **Volley Fragger** (5pt)
 - 1 **Blazejet Sprayer** (5pt)
- For every 10 troops in this formation, 1 Conscript equipped with a Pulse Rifle, may be equipped with one of the following:
 - 1 **Comm-Uplink** (5pt)
 - 1 **Latticom-Navigator** (5pt)

Formation Composition

- One of the Following:
 - 10 Conscrip
 - 20 Conscrip

Gear Abilities

- Comm-Uplink:** The bearer's formation **Order-Range** is increased by 3".
- Latticom-Navigator:** Each time the bearer's formation is targeted with a Manoeuvre roll a D4: on a 4+, the MP cost of that Manoeuvre is reduced by 1.
