ARMY RULE

MECHANICAL CONTINUANCE

The Autereiums Auteritons use nigh-supernatural abilities in order to have even their most damaged machines continue to function. Should a Auteriton be slain, its skeletal frame is immediately risen from the grave, reattaching its limits, repairing smashed skulls, and shambling back into battle

At the end of your Manoeuvres phase, each formation in your army activates its Mechanical Continuance and reanimates D3 wounds. Each time such a formation reanimates a wound:

If that formation contains one or more troops with fewer than their starting number of wounds remaining, select one of those troops; that troop regains one lost wound. If all troops in that formation have their starting number of wounds, but that formation is not at its Starting Strength, one destroyed troop is returned to that formation with one wound remaining.

Once such a formation is at its Starting Strength and all of its troops have their starting number of wounds, nothing further happens.

DOCTRINE RULES

If your Army is the Autereium, you can use one of these Combined Regiment Doctrine rules.

AMARANTHINE RULE

To be born, means one cannot live, and those who cannot live, cannot die. The Infinite Locas has made sure of this, and sustained us with the Wreathe.

When an **INFANTRY** formation within your army undergoes Mechanical Continuance, if a troop were to be reanimated, instead it reanimates a D3 troops, each with one Wound remaining.

ENHANCEMENTS

If your Army is using the **Amaranthine Rule** Doctrine Rule, you may use the following enchantments:

- **Casket of Obscurance - 20pts**

And under darkness of the holy void, do we hide beneath its accretion, bending light and darkness at our will.

INFANTRY only. While the bearer is leading a formation, troops in that formation have the Stealth ability.

- **Darkmatter Bonding - 30pts**

The metal of these machines have been bonded to an alternate form of themselves existing within the Wreathe.

INFANTRY only. The bearer has the Reinforced Health 4+ ability. The bearer's formation has Reinforced Health 6+.

- **Refraction of Lait - 10pts**

The nanolaminate lathes within each Auterium Calculator's weave are modified in order to pull energy from the Wreathe, to shield them, and their menials from an enemy assault.

CALCULATOR only. Once per round, when an enemy formation selects the bearer's formation as a target of an Assault, roll one D6: on a 2-5, that enemy formation suffers D3 Mortal Wounds; on a 6, that enemy formation suffers 3 Mortal Wounds.

ETHEREAL PROTOCOL

Hellear may not be a Kirkman in the traditional sense, but he is one to study it, and how it weaves through all. Most importantly, he understands how to manipulate it to his will, shifting his own armies on battlefields as if playing a game of chess.

Once per round, at the end of your opponent's turn during any phase, you may select a number of **AUTERIUM** formations from your army (excluding those in Threat Range of one or more Enemy formations). The maximum number of formations you can select depends on the battle size, as follows:

Experience Points	Level
≤ 1000pts	Up to 1 Formation
≤ 2000pts	Up to 2 Formations
≤ 3000pts	Up to 3 Formations

Once you have made your selections, remove those formations from the warfield, and place them into Reserves.

ENHANCEMENTS

If your Army is using the **Ethereal Protocol** Doctrine Rule, you may use the following enchantments:

- **Overwatch Protocol - 35pts**

To control the Warfield is to win the battle, to win the battle is to claim Exsintech. In this effort, this unit has been refitted with an advanced logic routine.

CALCULATOR only. While the bearer is leading a formation, using the Onslaught Overwatch Battle-Manoeuvre on this formation has its MP cost reduced to 0.

- **Transspatial Transfer - 20pts**

Sometimes the existence of walls is an inconvenience. Making use of small-scale Wreathe Jumps allows us to more easily combat the terrain.

CALCULATOR only. Each time the bearer's formation Advances, do not make an Advance Roll. Instead, until the end of the phase, add 6" to the Move Statistic, and additionally this unit can now move through terrain up to 3" thick, but cannot end their movement inside of it.

- **Thousand-Futures Protocol - 25pts**

Stepping into and from the Wreathe allows time to calculate all which may happen upon translation into the Material Realm. We will use this time efficiently.

CALCULATOR only. Each time a troop in the bearer's formation makes an attack, re-roll a Hit Roll of 1, if the bearer's formation was set up on the warfield this round, you can re-roll the Hit Roll.

INTEREMPTION IMPERATIVE

The Annihilators are a unique line of machine devised by Hellear to serve the process of war, led by their supreme intelligence Isen, the War-Engine. Perhaps it is best if we left the warring to those built for its purpose.

Each time an **ANNIHILATOR** formation from your army declares an Assault, you can re-roll the Assault Roll. If one or more targets of that Assault are below half-strength, add 1 to the Assault Roll as well.

Each time an **ANNIHILATOR** formation from your army makes a ranged attack that targets the closest eligible target, add 1 to the Damage statistic of that attack.

ENHANCEMENTS

If your Army is using the **Interemption Imperative** Doctrine Rule, you may use the following enchantments:

- **Anti-Matter Delamination - 15pts**

Enhancing the weapons of this machine is perhaps the easiest rule. Instead of molecular destruction, atomic delamination of atoms is perhaps more ideal.

ANNIHILATOR only. Each time a troop in the bearer's formation makes an attack, on a Critical Wound, improve the Armour Penetration, and Damage statistics of that attack by 1.

- **Mark of Extirpation - 20pts**

The pure malevolence of this machine is unbound, and its ability to destroy others is what fills its mind.

ANNIHILATOR only. Each time a troop in the bearer's formation makes an attack, add 1 to the Hit Roll.

- **Gravitic Wellspring - 25pts**

Using the freed energy of delaminated enemies, we can tug on the gravitic forces of an enemy formation to drag them into our kill range.

ANNIHILATOR only. Each time the bearer's formation is selected to Shoot, if any troops in the target enemy formation were destroyed as a result of your attacks roll a D6: on a 2-5 you may pull the enemy formation a D3 inches closer to your formation; on a 6 you may pull the enemy formation up to 3" closer to your formation.

MANOEUVRES

EITHER PLAYER'S TURN

MACHINES OF FEAR

When:

Your opponent's Shooting phase or the Brawl phase, just after an enemy formation has selected its targets.
