ARMY RULE

KOROLE OKHOTA

The Kolkatta is a storied Empire led by their ever noble Kolkatt. And Military tradition teaches us a variety of things, most importantly, that the nobles, officers, and the alike of the enemy are valuable, not just to them alive, but to us dead.

Once you have destroyed an enemy **CHARACTER** troop, you may select one of the following Okhota's to occur:

- **Morale of the White Star:** All **ESQUIRE** formations gain +1 to all Battle-Fatigue rolls until the end of the game.
- **The True Avangard:** All **ESQUIRE** formations gain +3" added to their Movement Statistic until the end of your next Movement Phase.
- **Flag & Signal:** All Manoeuvres used on **ESQUIRE** formations cost 1 less Manoeuvre Point (Minimum of 1) until the end of the Round.
- **Diestorch & Polysteel:** All **BOYARIN** formations regain D3 Stamina Points.
- **Hail of Lead:** All **BOYARIN** formations gain 1 Swiftess on all Ranged Attacks until the end of the Round.
- **Noble Prowess:** All **BOYARIN** formations automatically succeed Assault moves, on any enemy formation within 6" of them.

You may have multiple Okhota's active at once, but you may not have one of each active at once.

VONYA UOKER, WARWALKERS

Each time a troop with this ability makes a Normal, Advance or Retreat move, it can move over enemy troops (excluding other TITANIC troops) and terrain features that are 4" or less in height as if they were not there.

DOCTRINE RULES

If your Army is the Kolkattan Giantchesky, you can use one of these Combined Regiment Doctrine rules.

THE VOYSKO OF LEGENDS

Warriors such as these are not to be thought of as weak. No, they are to be seen as what they truly are, machines of no Cent'Irum design, led by Boyars so brave and skilled they outmatch any enemy army

BOYARIN troops from your army have the Reinforced Health 6+ ability. In addition, at start of your Manoeuvre's phase, roll a D6: on a 4+ you gain an additional MP.

ENHANCEMENTS

If your Army is using the **The Voysko of Legends** Doctrine Rule, you may use the following enchantments:

- **Maker of Balance - 30pts**

A weapon forged so carefully, and well, it can only be one of legend. Made or perhaps wielded by a favoured son of the Kolkatt. Or maybe the Kolkatt himself once.

BOYARIN only. Improve the Swiftess statistic of melee weapons equipped by the bearer by 2, and each time the bearer makes a melee attack, choose to either add 1 to the Hit roll, or Wound roll.

- **Katastrofic Cannon - 25pts**

Not just the weapons, but the user too. Experts of death, and the hunt. So expertly made they can near ignore anything.

BOYARIN only. Ranged weapons equipped by the bearer have the IGNORES COVER ability.

- **Banner of the Kolkatt - 20pts**

This machine is equipped with many such banners to stake a claim to the rightful land of the Kolkatt.

BOYARIN only. At the beginning of your Manoeuvres phase, if the bearer is within range for an Objective Marker you control, it remains under your control, until the enemy takes it.

GALANTNOST MOST BOLD

With their noble Esquires next to them, the true nobles of the Boyarc caste charge head first into battle, using expert tactics and strong hard hitting strikes.

Each time a **BOYARIN** formation from your army makes an Advance move, until the end of the turn, ranged weapons equipped by that formation have the **STORM** ability.

ENHANCEMENTS

If your Army is using the **Galantnost Most Bold** Doctrine Rule, you may use the following enchantments:

- **Kolkatta's Blessed Shield - 20pts**

Refitted with a unique Gravitic Shield, with technology stemming from the Printcessin, this machine can easily shunt off most attacks.

BOYARIN only. The bearer has, Maximum Defence 5+.

- **Trained Lancer - 30pts**

Sometimes perhaps Boyars were sporty lancers, trained in the art in their home courts.

BOYARIN only. The bearer has the **BAYONET** ability on all melee attacks. At the beginning of the Assault Phase choose one other **ESQUIRE** or **BOYARIN** within 12" of, and visible to the bearer. Until the end of the phase, that selected troop may re-roll Assault rolls.

- **Choice Strike - 25pts**

The bearer is well versed in how to direct the strongest hit towards anyone.

BOYARIN only. At the beginning of your Shooting phase, select one **ESQUIRE** or **BOYARIN** troop within 12", and visible to the bearer. Until the end of the phase the Swiftiness statistic of all their weapons are increased by 1.

ESQUIRE VANGUARD

The Esquire are perhaps the Giantcheskys main competitor to the Avangard. Perhaps it is time they acted like it.

All **ESQUIRE** troops in your army have; +2" Movement, +2 Stamina Points, and 5+ Heroism.

ENHANCEMENTS

If your Army is using the **Esquire Vanguard** Doctrine Rule, you may use the following enchantments:

- **Mentor of the Esquires - 15pts**

Sometimes when a lesser noble becomes a well tuned Esquire, they can be given the attention of one as if they were a Boyarin.

ESQUIRE only. The bearer gains the **BOYARIN** tag, and may re-roll a Hit roll of 1, when they make an attack.

- **Koshmarin's Honour - 20pts**

Koshmarin was the Boyar who tutored the young Princhev Kozlov. Koshmarin still to this day bestows his honour onto the young Boyars.

BOYARIN only. While two or more **ESQUIRE** troops are within 12", and visible to the bearer. Weapons equipped by those troops have the **PRECISION** ability.

- **Heroic Endurance - 20pts**

Using the freed energy of delaminated enemies, we can tug on the gravitic forces of an enemy formation to drag them into our kill range.

BOYARIN only. While two or more **ESQUIRE** troops are within 12", and visible to the bearer. Each time one of those troops is the target of an Attack, reduce the Damage statistic of the attack by 1 (Minimum of 1).
